Social Investments Approved for US\$50,000 or More and with a Duration of 12 Months or More

Period: January - December 2023

Investment Number	Supported Program	Implementing Organization	Name of the Investment	Main Objectives	Start Date	Duration in Months	Amount Approved USD	% Counterpart	Amount Disbursed USD	Country Impacted	Status
I-2023-05665	Migration	Verité, Inc	Walmart-Periplo: VERITÉ	To develop and strengthen the capacities of fresh produce companies and/or their providers in Mexico to increase compliance with international standards and regulatory frameworks concerning ethical recruitment and due diligence, through technical assistance and the use of appropriate tools. To inform agricultural workers and the civil society organizations that support them about organizational models to promote corporate social responsibility driven by agricultural workers and centered on their human and labor rights. The project will be implemented through April 2025.	22-Aug-23	20	170,000	0%	102,000	Mexico	In Progress
I-2023-05699	Migration	Centro de Información sobre Empresas y DH (CEIDH)/ BUSINESS & HUMAN Rights Resource Centre	Walmart-Periplo: CIEDH - BHRRC	To promote a more equitable agricultural industry in Mexico by advancing workers' rights and encouraging responsible business practices.	30-Aug-23	20	110,000	0%	66,000	Mexico	In Progress
I-2023-05716	Future of Work	Christian Aid	FORGE Renewals Christian Aid	To seek solutions to the harmful effects of private sector creditors involved in sovereign debt, including the reduction of government spending on the social safety net and their lack of commitment to debt-relief mechanisms.	1-Sep-23	12	130,000	0%	130,000	United Kingdom	In Progress
I-2023-05717	Future of Work	Caribbean Policy Development Centre	FORGE Renewals Caribbean Policy Development Centre	To strengthen an alliance of Caribbean organizations working on debt justice with the goal of bringing visibility to the significant impact of sovereign debt on Caribbean countries, particularly government spending and climate action. In addition, to connect with the global debt movement.	1-Sep-23	12	129,958	0%	129,958	Barbados	In Progress
I-2023-05718	Future of Work	Latinddad	FORGE Renewals Latinddad	To impact the global sovereign debt architecture, via a global coalition of civil society partnerships, resulting in reforms that alleviate or reduce the debt and its impact on government spending and climate action.	1-Sep-23	12	130,000	0%	130,000	United States	In Progress
I-2023-05721	Inclusive Recycling	Green Bricks, SPA	Latitud R - C2 Accelerator - CHI - Green Bricks Investment	To reduce the global environmental impact of plastics. During the first two years, 2023 and 2024, they want to strengthen their presence in Chile to be able to, in 2025, begin to expand their operations to other countries and take advantage of opportunities arising in potential markets like Colombia, Mexico, and Brazil, which have significant construction projects. In five years, the company will be established in these markets with a solid business model and relationships with large companies like CEMEX and Holcim to expand their business across the world to over 70 markets.	11-Aug-23	53	250,000	0%	250,000	Chile	In Progress
I-2023-05722	Inclusive Recycling	Gronn, SA	Latitud R - C2 Accelerator - CHI - Gronn Investment	To manufacture and sell over 200,000 units. Growing sales implies having continuous bottling capacity to be able to sell a standard product as they grow, but at the same time obtaining new bottle models that are attractive or match market trends (blue colored, a certain shape, etc.) that will allow them to sell a more differentiated product and improve brand appeal and customer loyalty.	11-Aug-23	64	250,000	0%	250,000	Guatemala	In Progress
I-2023-05756	Access to Water	Fundación Cántaro Azul A.C.	FGRA 01557 - Strengthening of community water and sanitation management in Mexico for water governance - Fundación Cántaro Azul	To collaborate with municipal governments to tackle this issue. With Berriozábal, we created an Organismo Municipal de Servicios Comunitarios de Agua y Saneamiento (municipal community water and sanitation services department, or OMSCAS) four years ago, and we have worked with 24 communities to gradually strengthen water and sanitation services. We worked with Las Rosas to create an OMSCAS last year, but it is still in the process of being built up and we have not yet begun to work with local communities. In La Trinitaria, we have made progress with 11 communities and have collaborated on specific projects with the municipal government. The focus of this project is to follow up on the progress we have already made and make improvements, particularly related to social aspects and the disinfection process, as we have not been able to prioritize investment in infrastructure thus far. It is a great opportunity as both community leaders and government officials are willing to continue working together on rural water and sanitation and community water management.	5-Oct-23	17	91,338	0%	91,338	Mexico	In Progress
I-2023-05757	Access to Water	Fondo para la Paz	FGRA 01557 - Strengthening of community water and sanitation management in Mexico for water governance - Fondo para la Paz	To develop Organismos Comunitarios de Servicios de Agua y Saneamiento (community water and sanitation organizations, or OCSAS) to employ local self-management models so that rural and remote communities can meet their water needs. This project will empower OCSAS by strengthening their organizational, technical, financial, and advocacy skills to design and manage water and sanitation projects.	9-Oct-23	17	170,406	0%	170,406	Mexico	In Progress
I-2023-05758	Inclusive Recycling	Bottleyes S.A.S	Latitud R - C2 Accelerator - ECU - Bottleyes S.A.S. Investment	To invest in BOTTLEYES, a company with access to raw materials to create 334,000 pairs of eyeglasses each year. The company's growth depends on the capacity of its injection molds, which reached its limit in year 1. The company has the suppliers and PET processing equipment and is at the stage of production where they are limited not by the processing equipment, but by the capacity of their injection molds. A plastic injector could produce up to 25,000 units per day, if needed. The company has letters of intent for its soft landing in Chile with Reley (~\$60,000) and Optimundo (no estimated amount), along with the requests for bids and impact businesses that have not been able to fulfill their commitments due to insufficient capacity (~\$100,000), a 0.22% share of the Ecuadorian market (~\$200,000), and the next soft landing in Colombia (RS) (~\$50,000). They hope that their B2C line brings in approximately \$100,000 in sales. They have the capacity to supply all of this with credit.	13-Sep-23	50	100,000	0%	100,000	Ecuador	In Progress
I-2023-05771	Inclusive Recycling	FEDERACION RED NACIONAL DE RECICLADORES DEL ECUADOR	Latitud R - ECU Strengthening of RENAREC	To strengthen the capacities and processes of the Corporación de Recicladores and RENAREC to bring together recycler associations and increase the volume of recyclable waste that is recovered, with a focus on plastics, as well as strengthen ISWM systems to include recyclers in the design of actions that encourage inclusive recycling.	31-Aug-23	12	80,000	0%	50,000	Ecuador	In Progress
